
Team Pulaski: Project PAT

By Cameron, Justine, and Michael

Members & Roles

Cameron Wilson

Starting: Team Manager/Full stack

In The end: Manager/Back end

Justine Papeleras

Starting: Team Manager/Full stack

In The end: Front end/Documentation

Michael Osachoff

Starting: Team Manager/Full stack

In The end: Full stack

Project Idea

- Allows users to put view current progress and goals
 - Suggestion for workouts and activities
 - Users being able to create own goals
 - Users being able to view current progress
-

Project Design

- Low-Fi to High-Fi
 - Home page (Calendar and Notification) difficulties
 - GitHub Project Board/Kanban was not utilized more as intended
-

Diagrams

- Low-fidelity diagrams assisted in determining the aspects we wanted within the program
- The high-fidelity diagram allowed us to determine a starting view and it was a valuable time-saver when it came to creating the view

The image displays a high-fidelity wireframe of a fitness application interface, organized into two main sections: a login/register overlay and a main user dashboard.

Login/Register Overlay:

- Log In:** Includes fields for Username and Password, and a Sign In button.
- Sign Up:** Includes fields for Username, Email, Password, and Confirm Password, and a Register button.

Main User Dashboard:

- Header:** Features a profile icon, the text "Some Person's Name", and navigation links: Home, Log Activity, Current Stats, and Logout.
- Todays Activity:** Contains progress bars for "A Complete Activity" and "An Incomplete Activity", with an Edit button.
- Current Stats:** Displays "Best Run: 10m Goal 5km" and "Most Candy Bars Eaten in a day: 22 Goal 686", both with progress bars and an Edit button.
- Try These!:** Includes input fields for "Not Eating 686 Candy Bars in a day" and "Bog Snorkelling", with a More button.
- Notifications:** Shows a message: "• You need to run 1km today!".
- Calendar:** A calendar for "OCTOBER 2021" with dates 1 through 31.

Team Reflections

1. How did we feel about this project? Was your team successful? What are the likes/dislikes about the project?
2. What did your team feel most proud of throughout the entire project experience?
3. What did we learn about yourself as you collaborated and worked on this project?
4. How will you use (or not use) what you have learned/experienced in this project going forward?
